Allianz Global Assistance welcomes you to Australia!

We understand that maintaining your health is an important part of making your stay in Australia as safe and enjoyable as possible.

Allianz Global Assistance is here to assist and provide services and information that make it easy to understand and use the health cover which is available to you, whilst working in Australia.

What is OVHC?

Overseas Visitors Health Cover (**OVHC**) is health insurance for international visitors which provides cover for the costs of:

- In hospital medical treatment
- Prescription medicines
- Surgically implanted prostheses
- Emergency ambulance transport
- Medical repatriation (only if authorised by AGA)
- Out of hospital medical treatment (Visitors Plus only)

Why is OVHC important?

Hospital and Medical treatment can be expensive

Australia has a public health insurance system, known as Medicare, and a public hospital system, however overseas visitors are generally not eligible for Medicare coverage or free treatment in public hospitals*. This means that overseas visitors who need hospital or medical treatment while they are in Australia will have to pay for these services, and the costs can potentially be significant – in most cases hospital treatment will cost more than \$1,500 per day.

Visa requirement

If your visa is subject to Visa Condition 8501, you must maintain adequate arrangements for health insurance while you are in Australia. Your visa conditions can be checked on the website of the Australian Government Department of Immigration and Border Protection (**DIBP**). Allianz Global Assistance's OVHC cover meets all DIBP requirements and will satisfy Visa Condition 8501.

DIBP requires holders of student visas to have a particular type of health insurance product, known as Overseas Student Health Cover (**OSHC**) – if you hold a student visa you should take out OSHC rather than OVHC. Information on Allianz Global Assistance's OSHC product is available at: www.allianzassistancehealth.com.au/oshc

Section one: OVHC policy

Who may be suitable for OVHC?

OVHC may be suitable for you if you hold certain visa types (**eligible visas**).

or

Allianz Global Assistance offers OVHC to holders of certain visa types (**eligible visas**).

Please refer to our website for details of the eligible visa types:

Single or Family Cover

Your Certificate of Insurance will show which policy you have selected. Your policy may be either:

- **Single** – covering only the overseas visitor;
- **Dual family** – covering the overseas visitor, and either one adult spouse or recognised de facto partner or one or more children or step-children under the age of 18 years who are not married; or
- **Multi family** – covering the overseas visitor and more than one dependant, which can only include one adult spouse or recognised de facto partner and one or more dependant children.

How long do I have to be covered?

For relevant visa types, the Australian Government requires that you have adequate arrangements for health insurance for the entire length of your stay in Australia

Periods of cover:

- 2 You are insured for the period of cover shown on your Certificate of Insurance, starting on the commencement date shown.
- 3 Your cover ceases on the date of your departure from Australia, the date you cease to hold an eligible visa, or on the expiry date shown on your Certificate of Insurance, whichever occurs first. However if you leave Australia on a holiday but return prior to the expiry date shown on your Certificate of Insurance and you still hold a current eligible visa when you return, your cover will recommence on your return to Australia and continues for the remaining period of your cover.
- 4 No benefits are payable for claims incurred by you during the lapsed period of your OVHC.
- 5 We will allow for acceptance of premiums for 60 days from the expiry date shown on your Certificate of Insurance without terminating the membership, unless you cease to hold an eligible visa. We are not obligated to pay for treatments received during any arrears period until and unless the arrears are paid for the relevant period.

For the purposes of these exclusions, the start date for calculating the relevant period of 12 months or 2 months, and whether or not the condition is a pre-existing condition, will be determined in accordance with the section "Waiting periods" on page 10.

Waiting periods

You cannot claim for costs arising during the applicable waiting period if such costs arise from a pre-existing condition or a pregnancy related condition.

The waiting period is calculated as 12 months (or, for psychiatric, rehabilitative or palliative care, 2 months) commencing from:

- the date you or your dependant (as the case may be) arrived in Australia; or
- the date your eligible visa was granted,

whichever is the later date.

If you are switching to Allianz Global Assistance from a similar policy held with another insurer, and there has not been a gap in your coverage of more than 30 days, we will count the time you were covered under your previous policy towards any waiting period which applies to your coverage with us – see the section “Other Important Matters” on pages 12 & 13.

If you have previously held OVHC or OSHC with us and:

- you voluntarily terminated your policy and 30 days have since elapsed during which you did not hold health insurance; or
- your policy was lawfully cancelled by us,

new waiting periods will commence upon commencement of any new policy you take out with us after that time.

A pre-existing condition is an ailment, illness or condition the signs or symptoms of which (in the opinion of a medical practitioner appointed by us) existed at any time in the period of 6 months ending on the relevant start date (determined in accordance with the above rules). In forming such an opinion, the medical practitioner must have regard to any information in relation to the ailment, illness or condition that the medical practitioner who treated the ailment, illness or condition gives him or her.

This includes an ailment, illness or condition that was present, but had not been diagnosed by a medical practitioner at the time of your arrival in Australia or the date your eligible visa was granted, whichever is the later date.

OVHC 24 hour helpline - 1800 814 781

In the event of a medical or personal situation, we will assist you with:

- (a) medical advice and assistance
- (b) referrals to a doctor for medical treatment
- (c) telephone access to a solicitor for legal advice
- (d) access to an interpreting service

In a medical emergency situation call triple zero (000).

AWP Australia Pty Ltd trading as Allianz Global Assistance has been appointed by the underwriter to administer all assistance services. Please note that the provision of assistance services to you is not deemed to be acceptance of cover in circumstances where no cover is otherwise available to you under this policy.

The Australian healthcare system

It is very important that you have a good understanding of the Australian healthcare system. If you understand the healthcare system in Australia, you will be able to access the best and most effective treatment for you.

www.humanservices.gov.au/customer/dhs/medicare

General Practitioners (benefits apply to Visitors Plus only)

If you are not in a medical emergency situation, the first point of contact is a general practitioner (GP), medical practitioner or local health/medical centre. You can access many services at your local health centre. Some of the services available are:

- General medicine and simple diagnostic screenings.
- Assessment and treatment of health problems and injuries.
- First aid services as needed.
- Women’s and men’s health.
- Referrals to specialist services.

In most cases, it is necessary for you to make an appointment to see your doctor.

Accident and emergency treatment

Many hospitals have a 24 hour accident and emergency department. Accident and emergency departments should only be accessed in the case of emergency situations. When you visit an accident and emergency department, a nurse will assess you and if your illness or injury is not deemed as an emergency, you may need to wait a long time to see a doctor. If you hold a budget visitor policy and your attendance at an accident and emergency department does not lead to in-patient admission, no cover is provided under your policy for any costs charged for your accident and emergency attendance.

Hospital treatment

If you have been admitted for emergency treatment, contact Allianz Global Assistance immediately on 1800 814 781. If you have been referred to hospital for a non-emergency admission, contact the claims department on 1300 727 193 prior to admission. You will need to provide Allianz Global Assistance with the details of your treatment and hospital stay. We will then be able to confirm your cover and assist you with making arrangements for payment to the hospital.

Public admission

Generally, OVHC covers the total cost of your stay and treatment as an in-patient in a shared ward of a public hospital. As a public patient, your doctors will be nominated by the hospital. After your hospital discharge your care will be carried out in either the outpatient clinic, by one of the hospital's specialists in his/her private rooms or you will be referred to your local general practitioner.

Private admission

You can choose to be treated in a private hospital. Through our relationship with Peoplecare we have arrangements in place with most private hospitals in Australia. These agreement hospitals ensure that an agreed schedule of fees (including in-patient accommodation, theatre and special unit accommodation fees as appropriate) is charged by the hospital and paid by Allianz Global Assistance on a member's behalf. You may incur out of pocket costs for private hospital expenses.

There are only a few private hospitals that are not part of these agreement hospitals. In these cases, we may not cover the full cost of your hospitalisation however, if you call us for a chat before you go into hospital we'll be able to tell you how much it will cost you. Members who choose a non-agreement hospital may incur out of pocket expenses for hospital related services.

How do I find a doctor

Direct billing services

In order to minimise your medical expenses, you can attend a health service or doctor that direct bills Allianz Global Assistance. You can find your closest direct billing service on our website at www.allianzassistancehealth.com.au/ovhc. You simply have to show your valid Allianz Global Assistance OVHC membership card, and the bill for the covered portion of your service will be sent directly to Allianz Global Assistance.

Other medical providers

You can attend any other medical practice or doctor in Australia. In most cases, you will be required to pay the bill, and submit a claim to Allianz Global Assistance in order to get your benefit reimbursed. Some medical practices or doctors may charge more than the benefit payable, in which case you will be required to pay a co-payment that is not covered by your policy.
